

***EVEN PARADISE OCCASIONALLY
HAS DARK SKIES***

When traveling to a spectacular destination, we hope for relaxation, blue skies and calm seas. Unfortunately, even in paradise, sometimes the skies turn dark.

Weather woes that cause power loss can bring a vacation to a screeching halt, and with it, all revenue generated by destination travelers and diners. With a backup power generation solution in place, the lights can stay on, and your guests can stay healthy, happy and ready for the sun to shine again tomorrow.

Stateline serves the hospitality industry with your bottom line in mind.

Stateline offers a variety of stationary and mobile power generation products that are geared specifically for use in the hospitality industry. The products featured on this page are just a few of the Stateline backup power solutions working to power resorts, hotels and restaurants throughout the country.

Product # SJ-30
30 kW Diesel

Product # SJ-60
60 kW Diesel

Product # SJ-205
